

Responsible. Green. Recycling.

Procedures for Shipment

1. Seal (1) end of the BakPak closed with (2) provided tape strips. Put InnerPak liner into container. Adhere the red return shipping label in the space provided & fill out the Accumulation Start Date.

2. Fill completely with **Non-Broken** used fluorescent light bulbs. Once filled close & secure the InnerPak liner. Seal the top of the BakPak closed with (2) provided tape strips.

3. Call 1.800.GoFedEx® or 888.777.6040 for pick-up.

Certificate of Recycling

4. Once BakPak™ is received your light bulb waste is recycled & a Certificate of Recycling is issued.
